

# Errata

Markus Blumenstock

June 12, 2020

Many places Due to an unknown technical error, the character  $\mathcal{O}$  was missing in all places where it was created by a macro. This has been fixed (by a workaround, without fixing the error that causes it). The author apologizes for this serious issue.

Ref. [PD06] Pătraşcu's name was incorrectly spelled as Pătraşcu.<sup>1</sup>

Ref. [WG16] and in-text It appears that the surname is Toko Worou, not just Worou. This changes the bibliography entry to [TG16].

---

<sup>1</sup>Pătraşcu himself used this incorrect spelling because he considered the  $\check{a}$  to be ‘ugly’ and did not know how to make a  $\check{ş}$  in  $\text{\LaTeX}$ , which can be done with the command `\cb` in the `combelow` package.
